

GREGORY KORNRUMPH

Principal Analyst, Water Rights & Contracts Salt River Project (SRP)

Topic:

“Water Reserves: Payson / Prescott”

1. Introduction
2. Agreement in Principle between SRP, Prescott and Prescott Valley and the “3M” plan (Monitoring, Mitigation and Modeling) that it attempts to establish.
3. Water rights background, history of the conflict
4. My perspective on its success

Bio:

Gregory Kornrumph has worked in the water rights/management profession for over 20 years, 17 of those at SRP and the other 5 with the Arizona Department of Water Resources (ADWR).

In addition to his water rights responsibilities in his current position as a Principal Analyst for Water Rights & Contracts, Mr. Kornrumph is SRP’s liaison to communities and interest groups on the Salt and Verde watersheds, developing water supply plans for SRP power plants and negotiating water exchange agreements. He is also an Arizona native who has spent much of his personal time hiking, fishing, and exploring the Salt and Verde Rivers.

Mr. Kornrumph holds a Bachelor of Arts Degree in Geology/Environmental Sciences from Whitman College in Walla Walla, Washington.
